The background features a complex network of glowing white and light blue nodes connected by thin lines, set against a dark blue gradient. Several large, semi-transparent blue spheres of varying sizes are scattered throughout the scene, some appearing to float or orbit. The overall aesthetic is futuristic and scientific.

# ASPA

Asian  
Science Park  
Association

# A Leading Institution for Knowledge Sharing and Technology Exchange in Asia

The problems with free and protective trade, market competition, race, religion and cultural differences rest upon us. They keep us from having the Asian community.

ASPA overcomes all of these obstacles, leads the network of industrial technology and contributes to building the Asian community.

## We contribute to building “Asian Community” based on the following key words.

### From Local to Local without national borders

# Asian Science Park Association

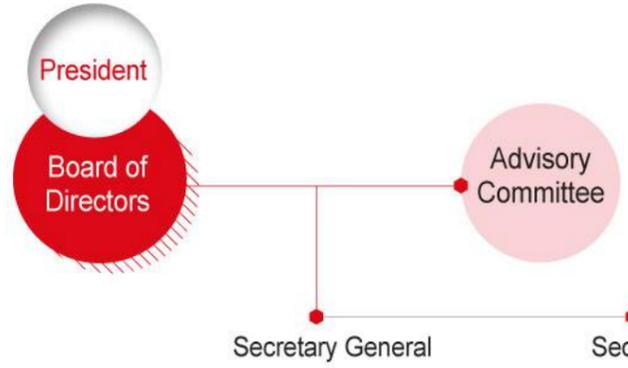

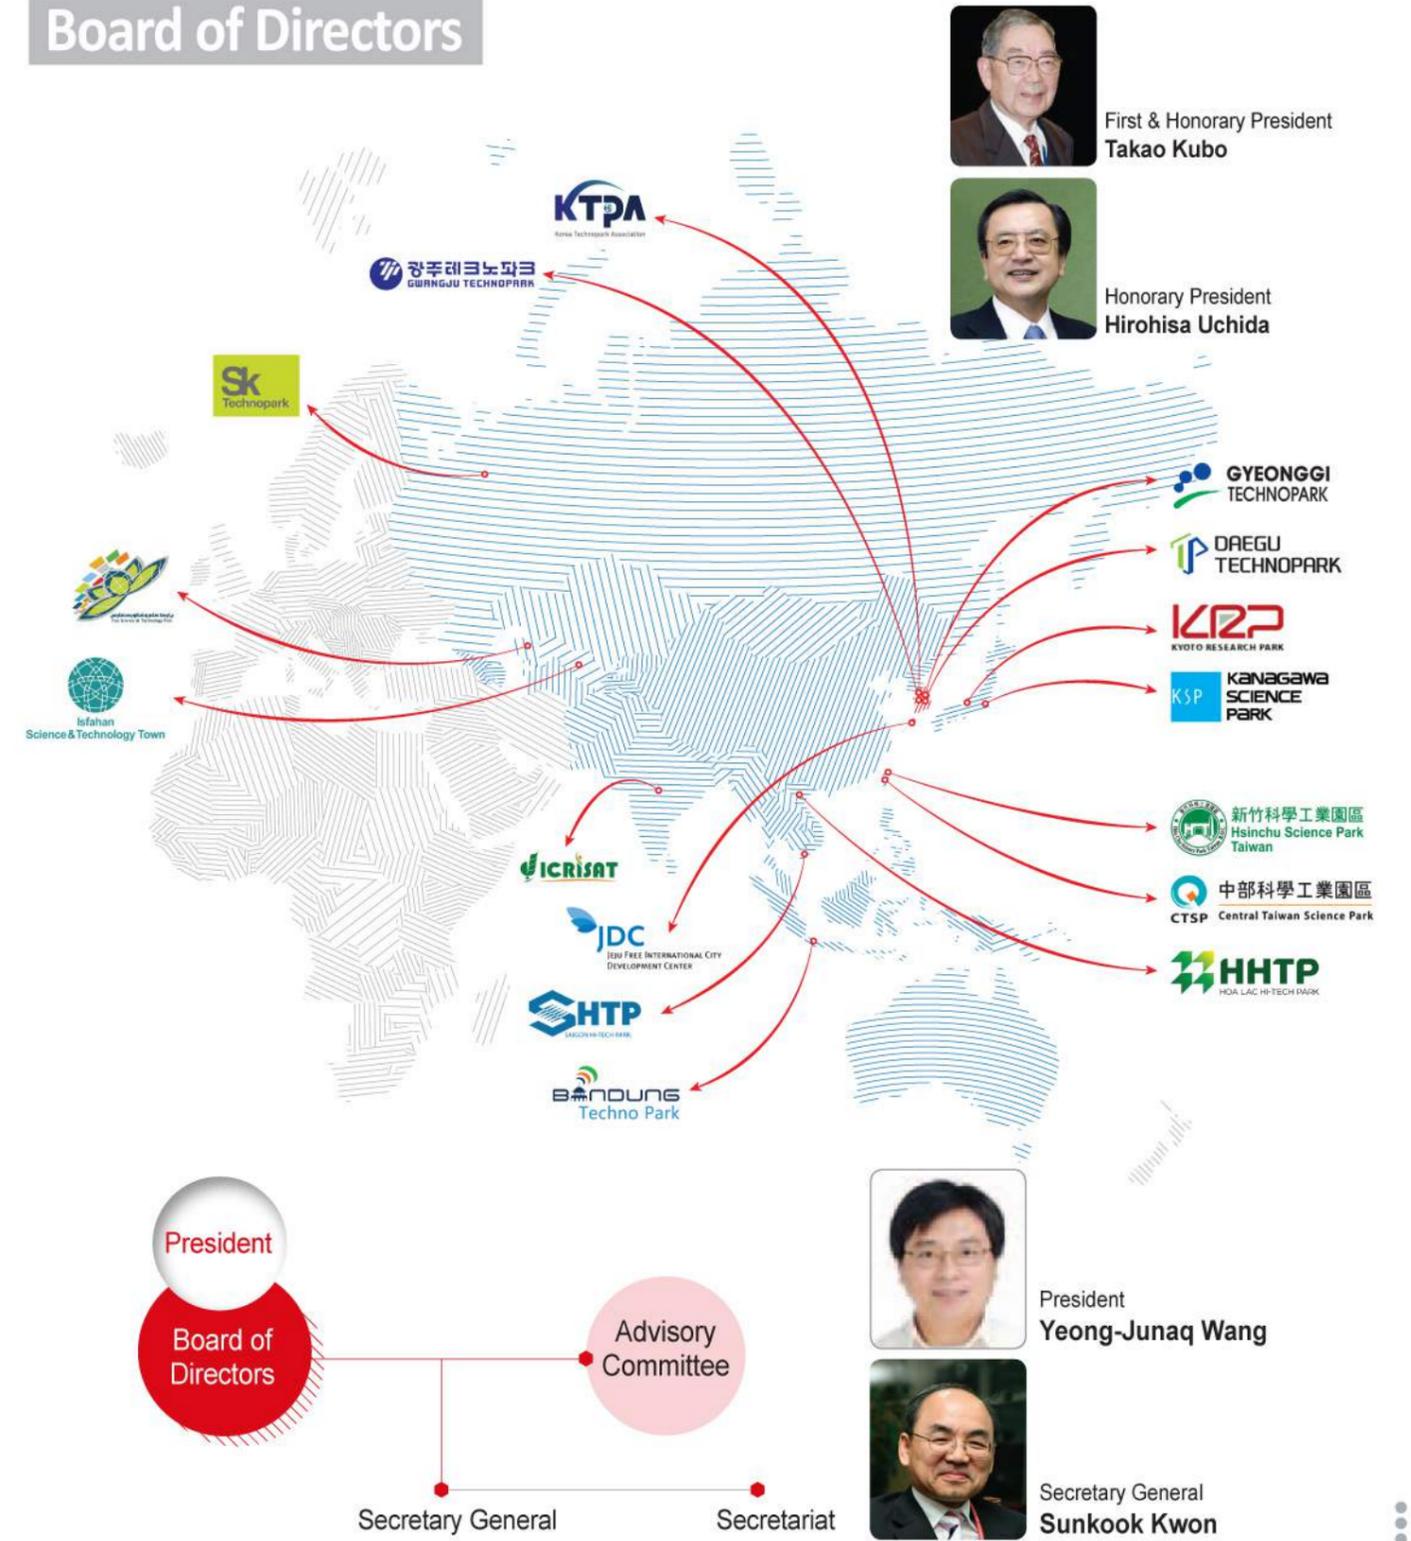

ASPA is an international nongovernmental organization established in Japan in 1997 for the purpose of accomplishing the joint development in the fields of scientific technology, industry and economy in the Asian region.

ASPA has been trying to present a new paradigm for Asian industry and build economic consensus in Asia by bringing innovative organizations, companies and individuals together that make contributions to industrial and economic development in their societies.

The efforts to achieve these goals include holding international events which can boost exchanges of experience, knowledge and various projects and share industrial and economic resources through the expanding network.

# Governing Bodies & Board of Directors

# Activities

## Conference & Exhibition

- Holding Annual Conference, LEADERS Meeting, ASPA Awards, Business Meeting ASIA and other events
- Interchanging valuable knowledge among STPs, regional innovative organizations, enterprises, universities and governments
- Exchanging the professional technology in the fields of technology and industry
- Promoting exhibitions with the specific subjects

## Education & Seminar

- Operating long and short term education programs for the staff in charge of practical affairs in STPs.
- Operating tour programs to experience outstanding STPs in the world

## Cyber ASPA & Publication

- ASPA MAP shows the status of STPs and the leading organizations of science and technology in Asia at a glance
- Providing innovative resources including technology, know-how and the latest information of science and technology in Asia
- Establishing the system for online cooperation of innovative organizations
- Distributing monthly/quarterly publications, research papers, specialty publications

## Research

- Searching the ground breaking development strategies with regional specialty
- Research on Asian growth models

# Annual Conference

As the biggest event of ASPA, it is held annually in the Asian region. The people involved in the innovative organizations such as STPs, research parks, business incubation centers, universities, academic institutions and start-up companies in Asia have participated in the conference for the past 22 years.

Not only can you catch the latest trend of science and technology, the annual conference provides you the opportunity to get the innovative regional know-how and broaden the social networking in Asia.

# 2 LEADERS Meeting

## LEADERS Meeting

ASPA LEADERS Meeting is the closed meeting to share the innovative knowledge, successful know-how and experiences of advanced STPs with new emerging STPs in Asia. This meeting also provides opportunities to strengthen the network of ASPA members and discuss joint projects with members.

# 3 Business Meeting ASIA

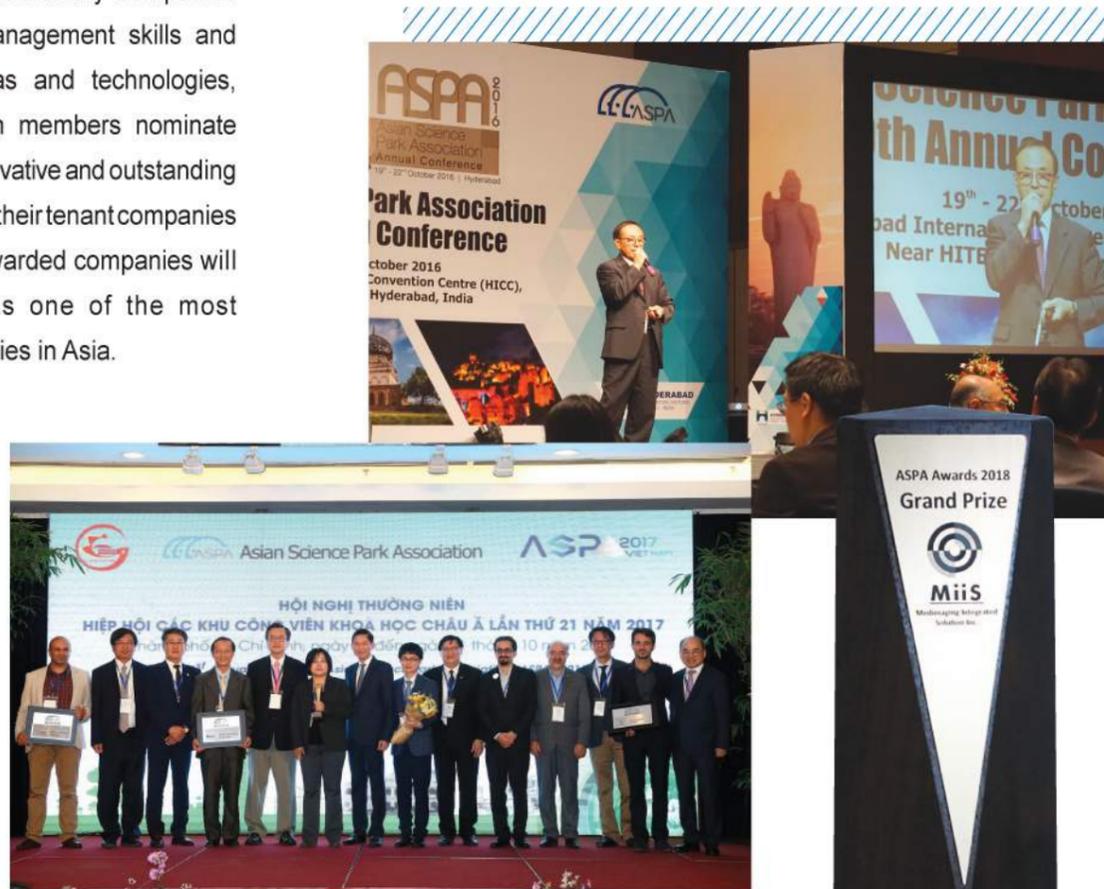

## Business Meeting ASIA

By organizing 'Business Meeting ASIA' annually, we pursue practical exchanges among ASPA members; Technology Exchange and Cooperation, Cooperative R&D, Know-How Exchange, Market Expansion, Network Building, etc.

## ASPA Awards

To reward the extraordinary companies which practice management skills and have brilliant ideas and technologies, ASPA organization members nominate one of the most innovative and outstanding companies among their tenant companies every year. The awarded companies will be recognized as one of the most innovative companies in Asia.

### Benefits of Winner

- To have a chance to promote the company product and technology in front of the people involved in STPs, research institutes and other related organizations
- To make the headlines of ASPA Webzine distributed in the Asian regions
- To support the winners to participate in the business matching event which is held in several Asian countries
- To get the opportunity to join the free ASPA membership for the first year

## Education & Seminar

We have long and short term educational programs to cultivate professional manpower and arrange the tour programs to have ASPA members experience the operative systems of the outstanding STPs in the world.

## Cyber ASPA

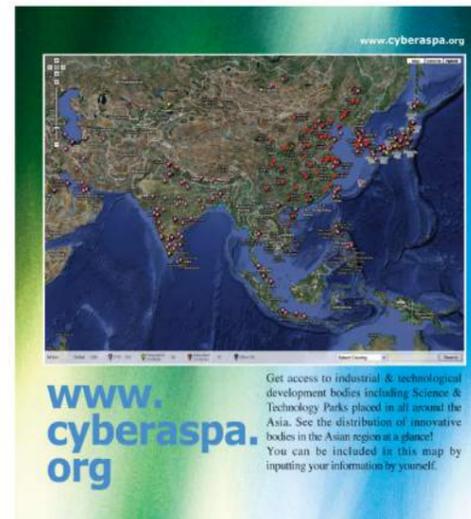

### [www.cyberaspa.org](http://www.cyberaspa.org)

On the ASPA website, you can check the overall information of ASPA and its members. On 'Business Guide', the information of Asian start-up companies, their products and technology and the consulting service of the marketing strategies are provided.

### ASPA Map

It shows the status of ASPA members and major STPs in Asia at a glance.

### Document Translation Services

Differentiated service for ASPA members  
On Cyber ASPA, we provide Chinese, English, Korean and Japanese translation service for ASPA members.
